Curriculum vitae (Last update: 2026.08.22)

Woo-Taek Jeon

E-mail: dnxor2275@snu.ac.kr
Phone: +82 10-2888-3150
Address: 1 Gwanak-ro, Gwanak-gu, Seoul, South Korea
Nationality: South Korea

Education

M.S. – Ph.D. combined course, Seoul National University, Korea — 2024.09 – Present
School of Biological Science (Advisor: Dr. Yuree Lee)

B.A. & B.S. (Cum Laude), Seoul National University, Korea — 2019. 03 – 2024. 08
Department of Philosophy (Advisor: Dr. Sung-Il Han)
School of Biological Science (Advisor: Dr. Yuree Lee)

Publications (*Co-first author)

1. **Jeon WT***, Jung H* et al., VizR: A Web-Based Integrated Platform for End-to-End RNA-Seq Analysis with Interactive Visualization in Plant Biology. ***Journal of Plant Biology*** (under revision)

2. Lee E*, Lee J*, Kim S*, Lee J, Han M, **Jeon WT** et al., Coordination of lignin and pectin remodeling by a NAC transcription factor regulates seed abscission in sesame (*Sesamum indicum L.*). ***Plant Physiology*** (under revision)

3. Kim K, Kang J, **Jeon WT** et al., Light-triggered ROS signaling shapes abaxial cuticle permeability in developing duckweed fronds. ***Journal of Experimental Botany*** (In press)

4. **Jeon WT** et al., Anther Dehiscence: Mechanisms, Regulation, and Environmental Sensitivity. ***Plant and Cell Physiology*** 67(12) (2026)

5. **Jeon WT***, Kim JA* et al., Root cap cuticles confer a transient, penetration-optimized phase during early seedling establishment. ***Plant, Cell & Environment*** 49(9) (2026)

6. **Jeon WT***, Kim JA*, Cheon A*, Lee SSY* et al., A hierarchical abscission program regulates reproductive allocation in *Prunus* × *yedoensis* and *Prunus sargentii*. ***Horticulture Research*** 13(2) (2026)

7. **Jeon WT** et al., Humidity shapes reproductive development in *Arabidopsis thaliana* by modulating epidermal identity and cell wall dynamics. ***Cell Reports*** 45(1) (2026).

8. Shin YS, **Jeon WT** et al., An RbohC and RbohE-mediated ROS oscillatory circuit regulates root cap turnover in *Arabidopsis*. ***iScience*** 28(12) (2025).

9. Lee JM, **Jeon WT** et al., Wounding induces multilayered barrier formation in mature leaves via phytohormone signaling and ATML1-mediated epidermal specification. ***Nature Plants*** 11(7) (2025).

Selected Awards

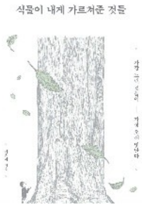
Presidential Science Scholarship, Government of Korea — 2026. 03 – Present
- Selected as one of the top 30 outstanding incoming Ph.D. students nationwide across all fields of science and engineering.

Excellent Poster Award, Suh Kyung-Bae Foundation Symposium — 2025. 08

Cold Spring Harbor Asia Fellowship, Cold Spring Harbor Asia Conference — 2025. 05

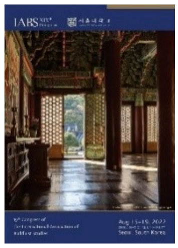
The Best Bachelor's Thesis, School of Biological Sciences, Seoul National University — 2023. 12

Other Experiences



Assistance for book production, *Things Plants Have Taught Me* , Cheonglim Publishing Co. — 2024. 09 – 2026. 07

Teaching assistant for the Molecular Biology,
Department of Biological Science, Seoul National University — Spring 2025



Secretariat for the 19th IABS Congress,
International Association of Buddhist Studies, Seoul National University
https://iabsinfo.net/conferences/past-conferences/ — 2022. 03 – 2022. 08

Volunteer staff member for the Summer Science Camp,
College of Natural Sciences, Seoul National University
https://science.snu.ac.kr/share/outreach/volunteer/info — 2022. 08

Military Service, Republic of Korea army — 2020. 08 – 2022. 02

Dream class (Mentoring program), Samsung
https://www.dreamclass.org/index.do; https://url.kr/532iyb (Interview) — 2020. 01

Cells United (Soccer Club),
Department of Biological Sciences, Seoul National University
Served as Team Captain in 2022 — 2019.03 – Present
