

Woo-Taek Jeon

School of Biological Sciences | Seoul National University
Webpage: <https://taek-2000.github.io/taek.github.io/>
E-mail: dnxor2275@snu.ac.kr

EDUCATION

09/2024 – Present	Seoul National University <i>M.S. – Ph.D. combined course School of Biological Science</i>	Seoul, Korea
03/2019 – 08/2024	Seoul National University <i>B.A. Department of Philosophy</i> <i>B.S. School of Biological Science</i>	Seoul, Korea

POSITION

09/2024 – Present	Seoul National University Plant Cell Biology <i>Graduate Student (Advisor : Dr. Yuree Lee)</i>	Seoul, Korea
03/2023 – 08/2024	Seoul National University Plant Cell Biology <i>Research Intership (Advisor : Dr. Yuree Lee)</i>	Seoul, Korea
03/2022 – 08/2022	Seoul National University Mycology and Ecophylogeny <i>Research Intership (Advisor : Dr. Young Woon Lim)</i>	Seoul, Korea

PUBLICATIONS (*Co-first author)

10. **Jeon WT***, Lee SSY* et al., A cytokinin-responsive lateral root domain promotes shoot-like organ formation after shoot excision in *Arabidopsis* (under review)

9. **Jeon WT***, Jung H* et al., VizR: A Web-Based Integrated Platform for End-to-End RNA-Seq Analysis with Interactive Visualization in Plant Biology. *Journal of Plant Biology* (under revision)

8. Lee E*, Lee J*, Kim S*, Lee J, Han M, **Jeon WT** et al., Coordination of lignin and pectin remodeling by a NAC transcription factor regulates seed abscission in sesame (*Sesamum indicum* L.). *Plant Physiology* (under revision)

7. Kim K, Kang J, **Jeon WT** et al., Light-triggered ROS signaling shapes abaxial cuticle permeability in developing duckweed fronds. *Journal of Experimental Botany* (In press)

6. **Jeon WT** et al., Anther Dehiscence: Mechanisms, Regulation, and Environmental Sensitivity. *Plant and Cell Physiology* 67(12) (2026)

5. **Jeon WT***, Kim JA* et al., Root cap cuticles confer a transient, penetration-optimized phase during early seedling establishment. *Plant, Cell & Environment* 49(9) (2026)

4. **Jeon WT***, Kim JA*, Cheon A*, Lee SSY* et al., A hierarchical abscission program regulates reproductive allocation in *Prunus* × *yedoensis* and *Prunus sargentii*. *Horticulture Research* 13(2) (2026)

3. **Jeon WT** et al., Humidity shapes reproductive development in *Arabidopsis thaliana* by modulating epidermal identity and cell wall dynamics. *Cell Reports* 45(1) (2026).

2. Shin YS, **Jeon WT** et al., An RbohC and RbohE-mediated ROS oscillatory circuit regulates root cap turnover in *Arabidopsis*. *iScience* 28(12) (2025).

1. Lee JM, **Jeon WT** et al., Wounding induces multilayered barrier formation in mature leaves via phytohormone signaling and ATML1-mediated epidermal specification. *Nature Plants* 11(7) (2025).

RESEARCH INTEREST

How cells perceive, integrate, and translate information into developmental decisions

- 1) Remodeling of cell identity and cell walls
- 2) Strategies for nutrient acquisition and allocation

AWARD

2025	<i>Poster Award</i> at Suh Kyung-Bae Foundation Symposium
2025	<i>Cold Spring Harbor Asia Fellowship</i> at Cold Spring Harbor Asia Conference
2024	<i>Cum Laude</i> at Seoul National University
2023	<i>The Best Bachelor's Thesis</i> at School of Biological Sciences

SCHOLARSHIP

2026 –	<i>Presidential Science Scholarship</i> from Government of Korea - Top 30 incoming Ph.D. students nationwide in science and engineering.
2026	<i>Cheol-Yeong Lee Scholarship</i> from Hanbaek Scientific Technology
2026	<i>Mahnhoon Park Scholarship</i> from SK Bioscience
2025, 2026	<i>Stadelmann-Lee Scholarship</i> from Seoul National University

SUPERVISION

2026 – Present	<i>Jaesung Shin</i> Junior undergraduate student
2026	<i>Youngduk Seo</i> Junior undergraduate student
2025 – Present	<i>Hwang Lee</i> Junior undergraduate student
2025 – Present	<i>Yeonu Lee</i> Senior undergraduate student Thesis title: <i>Role of marcescence in tree species</i>
2025, 2026	<i>Ahyeon Cheon</i> Senior undergraduate student Thesis title: <i>Carapace Lignin Deposition on the Epidermal Surface in Arabidopsis</i>
2025 – Present	<i>Jeong-A Kim</i> Senior undergraduate student Thesis title: <i>Secondary Cell Wall Remodeling for Root Penetration in Arabidopsis</i>
2024	<i>Sae Eun Park</i> Junior undergraduate student
2024, 2025	<i>Shawn S.Y. Lee</i> Junior undergraduate student

ORAL PRESENTATION

2026. 09	7 th Internaltional Symposium on Plant Apoplastic Diffusion Barriers, Lausanne, Switzerland - <i>What defines epidermis?</i>
2026. 04	1 st Baek Seminar, Seoul, Korea - <i>Plant nutrient strategies in cherry trees and bladderworts</i>
2026. 02	2026 Winter Conference of Korean Society of Plant Biologists, Seoul, Korea - <i>A hierarchical abscission program regulates reproductive allocation in cherry blossoms</i>

POSTER PRESENTATION

- 2026. 09 International Symposium on Plant Apoplastic Diffusion Barriers (PADiBa), Lausanne, Switzerland
- 2026. 06 International Conference on Arabidopsis Research (ICAR), Clementi, Singapore
- 2025. 08 Suh Kyung-Bae Foundation Symposium 2025, Seoul, Korea
- 2025. 05 Cold Spring Harbor Asia conference on Plant Reproductive Development and Genomics, Awaji, Japan
- 2025. 02 International Conference of Korean Society of Plant Biologists (KSPB), Pohang, Korea
- 2025. 01 Korean Society for Molecular and Cellular Biology (KSMCB), Yongpyong, Korea
- 2024. 06 International Congress on Plant Molecular Biology (IPMB), Queensland, Australia
- 2024. 02 International Conference of Korean Society of Plant Biologists (KSPB), Seoul, Korea
- 2023. 11 Korean Society for Molecular and Cellular Biology (KSMCB), Jeju, Korea
- 2023. 06 International Conference on Plant Growth Substances (IPGSA), Gyeongju, Korea
- 2022. 08 International Association of Buddhist Studies (IABS), Seoul, Korea

OTHER EXPERIENCE

- 2024. 09 Assistance for book production, *Things Plants Have Taught Me*,
– 2026. 07 Cheonglim Publishing Co.
- 2025 Spring Teaching assistant for the Molecular Biology (300.319),
Department of Biological Science, Seoul National University
- 2022. 03 – 08 Secretariat for the 19th IABS Congress,
International Association of Buddhist Studies, Seoul National University
<https://iabsinfo.net/wp-content/uploads/2022/09/XIXth-IABS-Conference-2022-programme.pdf>
- 2022. 08 Volunteer staff member for the Summer Science Camp,
College of Natural Sciences, Seoul National University
<https://science.snu.ac.kr/share/outreach/volunteer/info>
- 2020. 08 Military Service, Republic of Korea Army
– 2022. 02
- 2020. 01 Dream class (Mentoring program), Samsung
<https://www.dreamclass.org/index.do>; <https://url.kr/532iyb> (Interview)
- 2019.03 Cells United (Soccer Club),
– Present Department of Biological Sciences, Seoul National University
- Served as Team Captain in 2022

식물이 내게 가르쳐준 것들
